About the Photographer

Dave Cyphert has over 25 years experience behind the lens and as a graphic artist. While high school senior & sports photography is a ProPoint Media specialty, he also provides family, maternity, baby & toddler, business and executive, and modeling portraiture as well.

When combined, the marriage of photography & graphic design will astound you and offer a unique perspective to preserving your precious memories. After all, when it comes to your family's portraiture, it's never too early to start planning. Whether on location or studio....you call the shots!

Portrait Club
